

IILM
UNIVERSITY

IILM University

Artificial Intelligence Internship

Name: Praveen Mishra

Enrollment Number: 25scs1003001114

Program & Semester: B-tech CSE & 3rd

Organization Name: Codec Technologies

AI Training Program Graduate

Comprehensive Training

Completed a rigorous AI Training Program at Codec Technologies, covering both theory and applied practice.

Practical Applications

Mastered AI fundamentals and translated classroom knowledge into hands-on project delivery.

Certified Professional

Earned industry-level certification demonstrating competency in modern AI concepts and tools.

CODEC TECHNOLOGIES

1-Month AI Internship Experience

- **Position:** Artificial Intelligence Intern
- **Duration:** June 12 – July 12, 2026
- **Focus:** Hands-on experience with real-world AI projects and professional tasks

A full-immersion internship working alongside industry professionals to deliver meaningful AI-driven outcomes.

Core Skills Developed

Technical

- AI fundamentals & model design
- Problem-solving & debugging
- Technical implementation

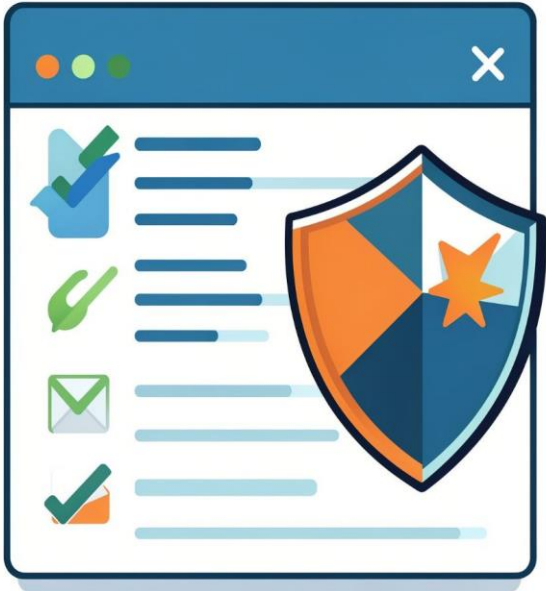

Professional

- Project execution & delivery
- Task management & prioritization
- Team collaboration

Soft Skills

- Clear communication
- Initiative & self-learning
- Dedication & adaptability

PROJECT 1

Email Spam Detector

Built a machine learning model capable of accurately classifying incoming emails as spam or legitimate — putting real ML into production-style practice.

- Applied AI algorithms for text analysis and pattern recognition
- Trained and evaluated classification model performance
- Demonstrated end-to-end practical ML implementation skills

Key Achievements

1

AI Training Certification

Successfully completed the full AI Training Program at Codec Technologies.

2

Internship Completed

Finished the one-month AI Internship with consistently strong performance throughout.

3

Letter of Recommendation

Received a formal Letter of Recommendation from Codec Technologies acknowledging excellence.

Recognition & Recommendations

“

Recognized for outstanding **dedication, enthusiasm, and professionalism** throughout the internship engagement.

”

“

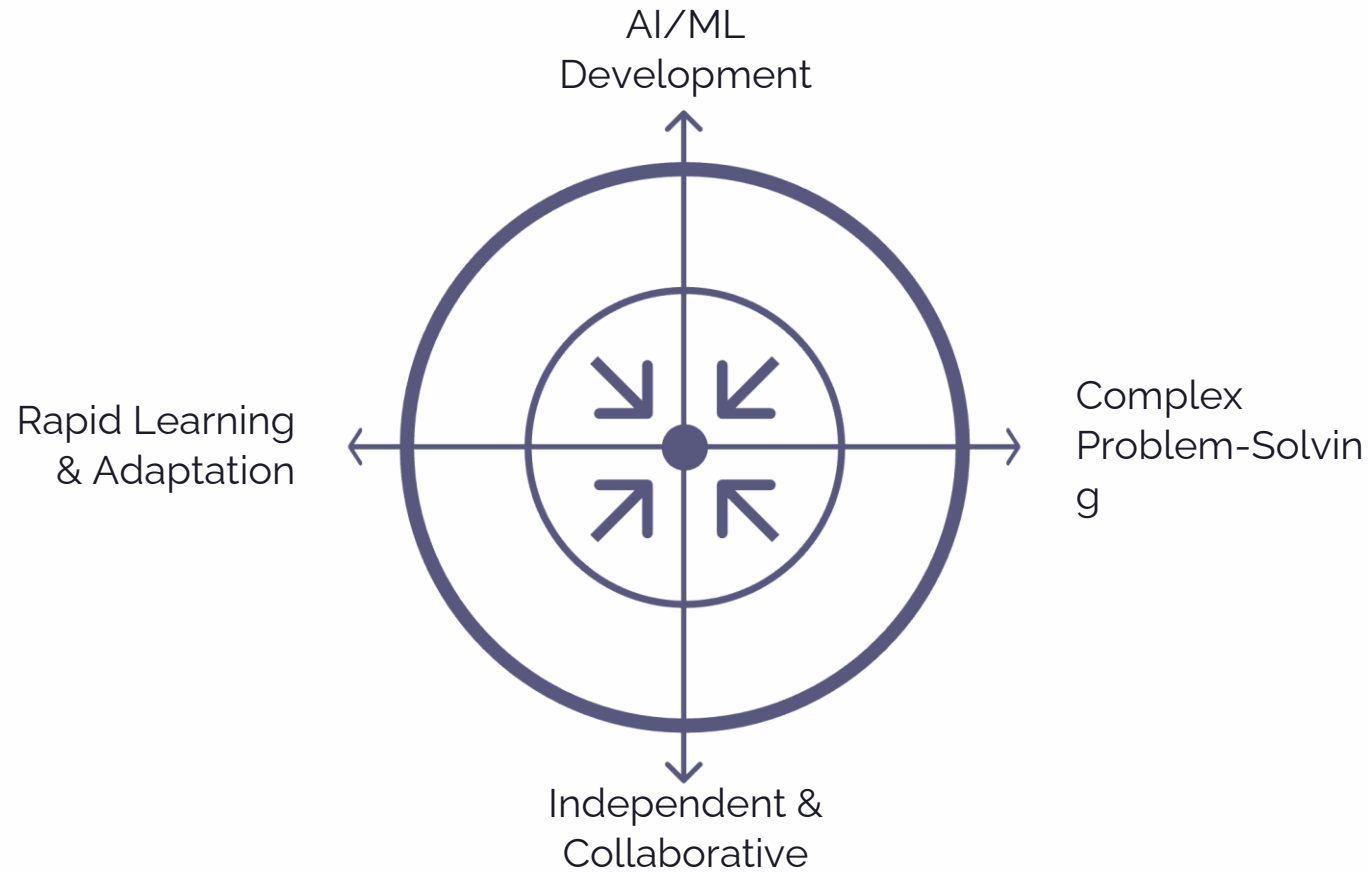

Praised for strong **technical skills and exceptional work ethic** on every project undertaken.

”

“

Recommended for future opportunities by Codec Technologies — a testament to performance and potential.

”

Competencies Demonstrated

- **AI/ML model development** – from design through deployment
- **Complex problem-solving** – tackling real-world technical challenges
- **Independent & collaborative** – ability to thrive both solo and in a team
- **Quick learning** – rapid adaptation to new technologies and workflows

Why This Matters

Real-World Experience

Hands-on AI work in a live professional environment – not just theory.

Proven Delivery

Demonstrated the ability to build and deliver functional AI solutions end-to-end.

Strong Foundation

Fully equipped for AI engineering and data science roles from day one.

OPEN TO OPPORTUNITIES

Ready for the Next Challenge

With certified training, a completed internship, two delivered AI projects, and a Letter of Recommendation in hand — Praveen Mishra is ready to contribute from day one.

- Seeking **AI/ML Engineering** or **Data Science** opportunities
- Equipped with practical skills and strong industry recommendations
- Committed to continuous learning and driving innovation forward

📄 Let's connect — open to full-time roles and collaborative projects in AI.
